

### Strawberry care:

Our family-run farm strives to produce the highest quality, best tasting strawberries possible. To enjoy your berries at their finest, we offer some suggestions.

#### Here are a few tips:

1. Keep your berries cool.
2. We recommend using your berries within three days of purchase.
3. Do not wash strawberries until you are ready to eat them.
4. If you are going to freeze your strawberries, freeze them as soon as possible.
5. Enjoy!

**Visit our field tent to purchase fresh, just-picked berries, open daily 7am to 2pm, through July 5th.**

For special orders, please call or email us in advance.
